

## MORE RACES NEXT FRIDAY

GREY JOHN AND LITTLE JOE WILL  
BE MATCHED, AS WILL ALSO  
BLUE RIBBON AND KATIE  
WILKES.

The racing fever has secured a firm grip upon Pensacolians, and from the outlook this sport will be witnessed during the entire season at Kupfrian's Park. The latest races to be arranged are between Grey John, who lowered the record on the track Friday, and Little Joe. The latter is a fast pacer and it is expected that the two animals will come under the wire pretty close together. Little Joe is a Montgomery horse, and has a reputation of being a fast one.

Another race, which will probably prove interesting, will be between Blue Ribbon and Katie Wilkes. The latter is a new horse on the track, but she has a good record, and although Blue Ribbon is a fast pacer, she will have a hard struggle to win from the new colt.

Special purses have been made for each of the two events, and a large crowd is expected to be present and witness the races.

BROTHERHOOD PICNIC MONDAY  
AT HYDE PARK. PARADE AT 10  
A. M.

WRESTLING MATCH HAS  
BEEN CALLED OFF.

The wrestling match advertised to occur at Electric Park July 4th, between Hall and Goddard, has been called off on account of the former's health. It will, however, occur at a future date which will be announced later.

## GREATER LAKE CITY ASSURED

SYSTEM OF PUBLIC IMPROVEMENTS PLANNED INCLUDING WATER WORKS AND LIGHT PLANTS.

Lake City, July 1.—The mayor and city council of Lake City, on last Tuesday, adopted an ordinance which means a great deal for the people of this place. This ordinance provides for submitting to the voters the question of issuing bonds of the municipality for various public purposes, among which are the following:

Providing the necessary funds for the purchase of the electric light and water system, which will cost the city from \$50,000 to \$60,000; \$25,000 for the purpose of installing an adequate and up-to-date system of sewerage throughout the city; \$65,000 for the purpose of paving and otherwise repairing the various streets and sidewalks; \$10,000 to be applied to the erection of a \$20,000 high school building. The city furnishes \$10,000 and the county a like amount for this purpose.

The total amount to be issued and expended for various public improvements aggregates about \$125,000.

It is the intention of the authorities to purchase the efficient electric light and water system, improve the same, and endeavor to furnish the people of Lake City with electric lights and a pure artesian water supply at an exceedingly low rate. It is also expected that the rate of taxation may be materially lowered by the public operation of these utilities.

Quite a large proportion of this money will be expended in laying vitrified brick on Marion street from the northern portion of the city, through the center, to the university buildings. Other streets will also be paved and sidewalks throughout the whole city put in perfect condition.

While Lake City is built upon soil of a sandy and porous nature, which easily and quickly absorbs all kinds of impurities, thus protecting the health of her inhabitants yet it is conceived that a town of Lake City's size and growth should have an adequate system of sewerage. For that reason something like \$25,000 would be devoted to installing the most scientific system of sewerage to be obtained.

Lake City already has a large and commodious high school building, for years locally known as the Peabody high school, but owing to the wonderful growth in population during the last few years, it has decided to demolish the existing building and to construct a modern brick building as the county high school. This will cost \$20,000.

On Top, June sales of Blue Ribbon Lemon and Vanilla Extracts broke all previous big records. Ask your grocer for Blue Ribbon Lemon and Vanilla. Take 'em. Flavors perfectly.

BROTHERHOOD PICNIC MONDAY  
AT HYDE PARK. PARADE AT 10  
A. M.

# T. H. Lannon & Co.

be of brick, strictly fireproof, built on most modern lines and when completed will be one of the most complete and modern structures of its kind in the state.

The council contemplates the expending of several thousand dollars in the beautifying of the parks, and in building of a roadway around Lake DeSoto, almost in the center of the city and one of the most beautiful sheets of water to be found anywhere.

This action on the part of the mayor and the council is the culmination of a movement which has been on foot here for the past six months. Some weeks prior to the convening of the late legislature, a citizens' mass meeting was held, at which it was unanimously and enthusiastically determined that the city authorities be requested to provide for the issue of bonds

along the lines set forth. Upon investigation by the council it was deemed best to ask for legislative authority, and accordingly, a special bill was introduced in that body at the instance of the council, authorizing the action of the council above referred to. The act was passed, and is now become a law, and, under its provisions, the question of issuing bonds will be submitted to a vote of the people.

Inasmuch as the voters, in mass meeting, requested this action to be taken by the council, it is evident that the issue of bonds will be unanimously authorized.

This means a great deal for Lake City, and although it is already the largest inland town in the state, and ranks fifth in population, it will now forge ahead to be one of the first. And, as she is now the Athens of Florida, she will continue to be the

center of learning of the state. A great future is ahead of her, of which her enterprising and progressive citizens and the people of the state are thoroughly aware. May she forge ahead until she is the first in the "Land of Flowers."
